

The Room Tax collection figures are available at each meeting of the Door County Tourism Zone Commission. There is a lag time between collection of the Room Tax by a lodging facility until the report is compiled. For example, Room Tax collected in July is due to be paid to the Commission at the end of August.

At that point, the accountants begin totaling a report to present at the next Commission meeting (third Thursday of each month).

Because late collections continue to come in after the due date, these reports should be considered a "snapshot in time"...totals will rise as collections are added and previous months are updated. However, you can spot trends in the Tourism Zone's lodging business and compare figures year to year.
